

Flood Detector

Easily integrated into RISCO wireless or hybrid installations, our Wireless and Wired Flood Detectors are rapid response devices that detect and alert home and business owners to the presence of even the smallest of water leaks.

From basements to water tanks, from leaky roofs to toilets and refrigerators, they provide added security and peace of mind and operate even when a security system is unset.

Key Features

Alarms in case of flooding above sensor level

Digital microprocessor with intelligent digital signal processing

Operating range up to 300m

High mounting option

Low battery supervision

RWT6FW86800 WL Flood Detector 868MHz

Current consumption	10µA (standby)
Frequency	868.65MHz
Battery type	CR123 3V lithium battery
Battery life	Up to 5 years
Operating temperature	40V/m 80MHz to 1GHz
Storage temperature	-20°C to 60°C (-4°F to 140°F)
Dimensions	81 x 35x 32mm (3.2 x 1.37 x 1.27")
Cable length	2.4m
Maximum humidity	95% non-condensing
